

# INFORMATION SECURITY POLICY

Our organization is committed to safeguarding the confidentiality, integrity, and availability of all information assets. To achieve this, we maintain a structured Information Security Management System (ISMS) aligned with the requirements of **ISO/IEC 27001:2022**.

## Information Security Commitment

Top Management has established an Information Security Policy that:

- Aligns with the organization's purpose and strategic direction.
- Provides a framework for setting, reviewing, and achieving information security objectives.
- Ensures compliance with applicable legal, regulatory, and contractual requirements.
- Supports continuous improvement of the Information Security Management System (ISMS).

## Policy Governance

To ensure transparency and awareness:

- This policy is documented and maintained as controlled information.
- The policy is communicated to all employees and relevant stakeholders within the organization.
- The policy is made available to appropriate interested parties, including customers and partners, where required.

---

Through this commitment, we strive to protect sensitive information, effectively manage security risks, and uphold the trust of our customers and stakeholders.
